TO WHOMSOEVER IT MAY CONCERN

It is a honest pleasure and honor for us to collaborate just for the terms and understanding between the "Academy of Maritime Education and Training (AMET)" and " Ambo University, Centre for Excellence and Incubation, Institute of Technology, Ethiopia, East Africa" to share the Knowledge through the International conference. This International Conference on Technological Advances in Mechanical Engineering (ICTAME)" organized by Department of Mechanical Engineering, AMET only. Funding of all expenditure funding commitment, proceedings activities related to the conference will be bearded by AMET only.

In connection to this, we are pleased to inform you that, to merge the papers and proceedings, logs, concerned with international conference on recent trends in engineering and technology in order to benefit the authors to publish their research finding in an reputed journal.

. It is agreed that the proceeding will be published along with your conference proceeding and has to forwarded to the relevant journals with the cooperation of our team also, if it's necessary, where the authors may be approached to present their finding through video conference.

In line to this we are very pleased to get associated with AMET University-ICTAME 2018 conference with AMBO University and directed to proceed to incorporate with our University Logos, Organizing Committee Members, Special address by president of ambo university and director of centre for excellence and incubation, other associated university and organization logos, Keynote speakers and Research Participants, in order to meet the mutual benefits between these two universities and to satisfy the researchers trust towards reputed publication in reputed journals.

I appreciate the coordinators and conference convener of AMET University for approaching us and collaborating with us. I wish Good luck to this conference.

With truly,

(R.Krishnaraj)  
Convener and Organizing Secretary  
International Conference on Recent Trends in Engineering and Technology,  
Institute of Technology,  
Ambo University,  
Ethiopia, East Africa.
